Dictated

*New Haven, Ct.**Mch. 5th, 1838*

To The Supt. of the U.S. Mint, Philadelphia.

Sir:-

At the coming
Celebration of the two hundred and fiftieth Anniversary of
the foundation of the New Haven Colony, it is proposed to
issue a medal to commemorate the event.

At the celebration in 1838 such a medal was issued, and
we believe the die was cut and the medals produced at your
Mint. I inclose two impressions taken from that medal.

What we now wish is to ascertain about the cost of pro-
ducing a medal of this size, and substantially the same
amount of work; probably the design will be somewhat changed,
but not to make more expensive cutting than that indicated
by the two impressions which I inclose.

Will you please give me the cost for the dies, and fifty
copper medals, to be furnished to us on or before the 20th
day of April. Our celebration is the 25th, and we feel that
we must have this number as early as the 20th, to make prepa-
ration for the sale. Also give the cost of additional
medals in copper, and for the same medals in silver.

318
I do not expect accurate estimates until the design
itself is produced, but simply to obtain an approximate
cost that an appropriation may be made, as well as to ascer-
tain whether it is possible to procure the medals within
this time.

An early answer will greatly oblige,

Yours very truly,

for the Committee on Medals,
and Memorials.

To the Supt. of the U.S. Mint, Philadelphia.

Sir: -

At the coming celebration of the two hundred and fiftieth Anniversary of the foundation of the New Haven Colony, it is proposed to issue a medal to commemorate the event.

At the celebration in 1838 such a medal was issued, and we believe the die was cut and the medals produced at your Mint. I inclose two impressions taken from the medal.

What we now wish is to ascertain about the cost of producing a medal of this size, and substantially the same amount of work; probably the design will be somewhat changed, but not to make more expensive cutting than that indicated by the two impressions which I inclose.

Will you please give me the cost for the dies, and fifty copper medals, to be furnished to us on or before the 20th day of April. Our celebration is the 25th, and we feel that we must have this number as early as the 20th, to make preparation for the sale. Also give the cost of additional medals in copper, and for the same medals in silver.

I do not expect accurate estimates until the design itself is produced, but simply to obtain an approximate cost that an appropriation may be made, as well as to ascertain whether it is possible to procure the medals within this time.

An early answer will greatly oblige,
Yours very truly,
John E. Earle
for the Committee on Medals,
and Memorials.
